Quiz & Worksheet - Hypothesis, Theory & Law in Science

<http://study.com/academy/practice/quiz-worksheet-hypothesis-theory-law-in-science.html>

1. Which of the following is not true about both scientific laws and scientific theories?

- Both are used to explain why a phenomenon happens.
- Both can be modified if new evidence arises.
- Both can be used to make predictions.
- Both are based on hypotheses.

2. Once a hypothesis is generated, what is the best next step?

- Assume it is a fact.
- Submit it to the committee for establishment of scientific law.
- Wait to see if someone comes up with a better one.
- Test the hypothesis through experimentation.

3. Which of the following statements about scientific theories is wrong?

- Theories are based on sets of hypotheses.
- Theories are used to explain why natural phenomena occur.
- Theories can be changed if new evidence arises.
- Theories are simple suggestions made on a whim by curious people.
